kontainer.

Add a Brand Section

Add contact details, social media links, a few words of wisdom or something else entirely to the user experience.

The information will be visible wherever users are within Kontainer, so it should be generic.

As an Admin User, you will not see this section, so make sure to preview what it will look like for your end-users.

Let's get started. Follow the step-by-step guide below.

Step 1 Open Kontainer Settings

Login to Kontainer as an **Admin User** and navigate to *Settings* in the far-left menu.

Step 2 Add Sections

Add as many sections as you need. The Headline cannot be formatted, but the rest of the text can.

Remember to Save your changes.

Step 4 Preview Your Brand Section

To preview your Brand Section, make a share link to one of your folders and paste the URL into a new browser.

(If you use the same browser you are already working in, you will need to log back in as your own user)
